ACTIONS OF THE WASHINGTON COUNTY PLANNING COMMISSION MEETING / 05-24-05

CONDITIONAL USE PERMIT EXTENSION. Review progress on construction of a single family dwelling within the OST-20 zone, Sec. 17, T37S R17W, SLB&M, 3 miles west of Enterprise. Todd Truman, applicant. Planning Commission voted 4 to 0.

This is an automatic annual review. The home was approved at the sheet rock stage this week. It was inspected by Building Official Kurt Gardner and meets the requirements of the International Construction Code. The owners are making progress but can only work part-time. *The Planning Commission unanimously recommended approval for the Conditional Use Permit Extension for a period of six (6) months.*

CONDITIONAL USE PERMIT EXTENSION. Review progress on installation of fiber optic lines in the County unincorporated area from a fiber optic regeneration facility located west of Gunlock, running along Old Hwy 91 south of Ivins. InterLinx/Gene Morris, applicant. Planning Commission voted 5 to 0.

This is an automatic annual review. Fiber Optic lines were installed last spring. Conduit was installed with the Washington County Water Conservancy District lines for fiber optic capability. The route runs along old Highway 91 and a small section along Dixie Drive located south of Green Valley. *The Planning Commission unanimously recommended approval of the Conditional Use Permit Extension on a permanent basis.*

CONDITIONAL USE PERMIT EXTENSION. Review progress on construction of a single family dwelling within the A-20 zone, Sec. , T38S R17W, SLB&M, 2 ½ miles east of New Harmony. Craig Moore, applicant. Planning Commission voted 5 to 0.

This is an automatic annual review. The home was approved for the period of one (1) year. There has been a change of ownership. The home will need to meet the requirements of the International Construction Code before the inspector will sign off on any portion of construction. Originally, the building was a barn that was later converted to a guest house. Through the permitting process, the guest house is now considered the main house. There has been some difficulty with framing and construction has not been cleared on the 4-way inspection. The building permit is now in the name of the new owner, Larry Powell, and remains valid. The inspectors need to determine whether there is adequate firewall protection. This is a new application for a Conditional Use Permit in the A-20 zone as a primary dwelling. *The Planning Commission unanimously recommended approval of the Conditional Use Permit Extension for a period of six (6) months.*

CONDITIONAL USE PERMIT EXTENSION. Review extension for a rock extraction operation within the OST-20 zone, N ½ SE 1/4, Sec. 14, T37S, R18W, SLB&M, generally located 6 miles west of Enterprise. Kendall Gardner, applicant. Planning Commission voted 5 to 0.

This is an automatic annual review for rock extraction from an existing pit. The applicant is ready to locate a crusher on site and has submitted the state licensing on the equipment. The applicant is also licensed as an instructor for Mine Safety and Health Administration (MSHA). There have been no complaints on this use throughout the past year. With the recent flooding, there have been some access problems, but those are being resolved with improvements to the roadways.

There is one (1) crusher on site. The closest neighbor is approximately one-half mile away. The dust has not been a problem because everything has been so wet. Mr. Gardner is obtaining an air quality permit and the state agencies are waiting for dry weather to make inspections. There are currently sanitary facilities on site. Because Mr. Gardner is also the City Marshall for the City of Enterprise, he divides his time between his duties in Enterprise and working at the gravel pit, so the pit is not used full-time. *The Planning Commission unanimously recommended approval of the Conditional Use Permit Extension subject to approval of Air Quality Control for a period of one (1) year.*

CONDITIONAL USE PERMIT EXTENSION. Review extension on a sales office for the Kolob Ranch development on the west side of the freeway at the Kolob Exit off Interstate 15. Kolob Development, Inc./ John Anderson, Project Manager, applicant. Planning Commission voted 5 to 0.

This is an extension of a use approved annually since 1990 and runs with the development until the

lots are sold. The Permit is for a project sales office. This use was approved last year subject to the sanitary facility addition being aesthetically pleasing. The current porta potty is a neutral color that is not visible from I-15. It faces Highway 91 and is serviced weekly. The Planning Commission noted that in the May 25, 2004, meeting it was specifically stated that a porta potty would be installed for a few months while a restroom was being added to the existing structure. Mr. Anderson didn't recall making this commitment, but asked for time to check his options. There is a septic tank on the property and water could be connected. *The Planning Commission recommended approval of the Conditional Use Permit Extension for a period of one (1) year subject to installation of an appropriate sanitary facility either inside or appended to the existing building within sixty (60) days.*

CONDITIONAL USE PERMIT. Request permission to build a single family dwelling within the A-20 zone, Section 15, T38S, R13W, SLB&M, generally located 1/4 mile northeast of New Harmony. Ruth Boothe , applicant. Planning Commission voted 5 to 0.

Single family dwellings are approved conditionally within the A-20 zone. The applicant has obtained a septic permit from the Southwest Utah Public Health Department and submitted documentation on quantity and quality of a private well, meeting all requirements. The access road goes north off 175 East (which goes off Center Street). It is about six-tenths (6/10) of a mile from Center Street. *The Planning Commission unanimously recommended approval of the Conditional Use Permit for a period of one (1) year.*

CONDITIONAL USE PERMIT. Request permission to operate a residential treatment facility for youth within the OST-20 zone at the DI Ranch. Terry Martin, applicant/Lance Anderson & Dave Arslanian, agents. Planning Commission voted 5 to 0.

The applicant would like to operate a residential treatment facility and school for twenty (20) youths at the Eagle Ranch Academy, Inc. (a/k/a DI Ranch). There will be two (2) supervisors for every four (4) youth and they will be under 24 hour supervision. One-half of their time will be dedicated to education and the other half will be dedicated to chores—living a structured lifestyle. Each youth will be in the program from six (6) to ten (10) months and there will be no adjudicated youth. The applicant has addressed the issues of health and safety, communications, evacuation and fire protection at the ranch. The applicant has submitted a letter from the Southwest Utah Public Health Department stating that the existing system is adequate for the Ranch's needs, and the culinary water has been tested extensively by Chemtech-Ford Laboratory.

Sheriff Kirk Smith has spoken with Pete Kuhlmann, the new Fire Chief in Ivins, and Mr. Kuhlmann has agreed to work with the applicants. Employees at Eagle Ranch Academy will be EMT certified as first responders, as well as Wildland Fire Fighter certified to be able to handle fires either at the location or around the area.

Sheriff Smith said it has become policy to call the SWAT team in the case of a runaway instead of Search and Rescue so that the safety of civilian volunteers is not jeopardized. The applicant has indicated that the Ranch will form its own Immediate Response Team with Mr. Kuhlmann as the head, and with other certified people such as man-trackers who will be contracted employees. This will eliminate any involvement with Washington County. Mercy Air Ambulance, Las Vegas, has agreed to respond in case of any serious injury.

The youth will also be required to remove their shoes upon entering a building. The shoes will be locked up, which should discourage anyone from leaving. Sheriff Smith said he is very comfortable with the applicant's preparation and feels there will be little or no impact to the community. He feels the location is a good one. Mr. Arslanian explained that there will be wireless internet with phones, as well as satellite phones for emergencies. There will also be walkie-talkie radios for communication around the ranch and into St. George. *The Planning Commission unanimously recommended approval of the Conditional Use Permit for twenty (20) youth or less, with information that was submitted by applicant to remain with Staff for a period of one (1) year.*

MOTION: Motion by Commissioner Gardner to approve the Consent Agenda as presented. Motion seconded by Commissioner Ence and carried by unanimous vote, with Commissioners Eardley, Gardner, and Ence voting aye.

In mid January during the flood, he put much of this training to use at the Bloomington site as he coordinated and managed volunteers during the sandbagging process. Chairman Eardley called for comments from the audience. No comments were forthcoming. Chairman Eardley closed the public hearing and called for a motion.

PUBLIC HEARING AND CONSIDERATION OF A REQUEST FOR PLAT AMENDMENT, DIXIE SPRINGS SUBDIVISION SECOND AMENDMENT AND EXTENSION PLAT "B," KIMBALL L. YOUNG, APPLICANT/CREAMER & NOBLE ENGINEERS/STEVE LAYTON, PROJECT MANAGER. Planning Commission Voted 5 to 0.

Chairman Eardley opened the public hearing.

Deon Goheen said this is in the Dixie Springs Area. They want to amend one (1) large lot to create six (6) smaller lots, which would go with the rest of the development. There was a question on the bonding that needed to be resolved by the Commission and Deputy County Attorney David

Patterson. The Planning Commission unanimously approved this amendment.

Mr. Patterson said the question was whether these lots would be included in the Dixie Springs Special Improvement District (SID) bond. Chairman Eardley said they had discussed the matter with the County's financial advisor, Jon Bronson of Zions Bank, and he indicated that the lots would be covered.

Chairman Eardley called for comments from the audience. No comments were forthcoming. Chairman Eardley closed the public hearing and called for a motion.

CONSIDERATION OF APPROVAL OF THE DEAD END STREET REQUIREMENT TO BE WAIVED ON A DEDICATED ROAD IN KOLOB RANCH - PHASE 6B @ BLACKRIDGE. KOLOB DEVELOPMENT, INC./JOHN ANDERSON, PROJECT MANAGER, APPLICANT. Planning Commission Voted 5 to 0.

Deon Goheen said this would be an improvement to the dead end street requirement, which is normally sixteen hundred (1,600) feet. She said this was approved approximately ten (10) years ago with the Blackridge Development and it was close to three thousand (3,000) feet in length at that time. This change would modify the length by approximately six hundred (600) feet, bringing it closer to the sixteen hundred (1,600) foot requirement. The Planning Commission made its decision recognizing that the length of the dead end is in violation of the Ordinance, but since it has been previously granted for an even greater length, they recommended that the present length be approved. Ms. Goheen said the road would be approximately two thousand (2,000) feet in length.

Chairman Eardley expressed concerns with safety for emergency vehicles on a dead end road of this length. Ways of making the road connect with other roads in the subdivision and other access issues were discussed with applicant John Anderson. The lots involved are five (5) acre lots.

MOTION: Motion by Commissioner Gardner to deny the request for the dead end street requirement to be waived on a dedicated road in Kolob Ranch, Phase 6B @ Blackridge, Kolob Development, Inc., John Anderson, Project Manager, applicant. Motion seconded by Commissioner Ence and carried by unanimous vote, with Commissioners Eardley, Gardner, and Ence voting aye.
